ABOUT ME

I am a Software Developer with 1 year of experience as a Shopify Developer. I have hands-on experience with Shopify Liquid, HTML, CSS, JavaScript, and custom theme development. I specialize in building responsive websites, customizing Shopify themes, and creating user-friendly e-commerce experiences.

SKILLS

Shopify Development | Shopify Liquid | Custom Shopify Section Development | Shopify Theme Customization | HTML5 | CSS3 | JavaScript | Figma to Shopify Conversion | Responsive Web Design | Bootstrap 5 | Shopify Variant Customization | Shopify Store Setup & Configuration | Shopify Apps Integration

WORK EXPERIENCE

SHOPIFY DEVELOPER – WEBCONTRIVE TECHNOLOGIES – 20/10/2025 – 15/10/2026 – SURAT, INDIA

- Developed custom Shopify sections and reusable blocks using Liquid, HTML, CSS, and JavaScript.
- Converted Figma designs into responsive Shopify storefronts.
- Customized Shopify themes, product pages, collections, and layouts.
- Implemented product variants, color swatches, metafields, and cart drawer functionality.
- Worked with Shopify Theme Editor, JSON templates, and section schema to improve user experience.

PROJECTS

OQIUM – Custom Shopify E-commerce Store Development

Initially developed the OQIUM e-commerce website using HTML, CSS, and JavaScript during my internship. Later, customized and rebuilt the project on Shopify using Liquid, custom sections, and reusable blocks, converting the original design into a responsive Shopify storefront based on Figma designs. Implemented custom layouts and theme functionality for desktop, tablet, and mobile devices.

LECSUDO – Custom T-Shirt E-commerce Store Development

Developed and customized a Shopify-based T-shirt e-commerce storefront featuring modern streetwear products and a responsive user interface. Worked on Shopify Liquid, HTML, CSS, and JavaScript to customize store sections, product layouts, and collection pages. Implemented product variant selection for sizes and colors, product displays, and responsive layouts to provide a smooth shopping experience across desktop and mobile devices.

Crivon3D – 3D Printing E-commerce

Built and launched an e-commerce website for a custom 3D printing business using Shopify. Customized the storefront with product collections for personalized nameplates, pen holders, car key organizers, keychains, and planters. Added a custom order page, a nameplate customization product, a wishlist, and promotional banners with combo deals and free-shipping offers. Set up product listings with images, pricing, and SEO-friendly titles, and enabled online checkout and order tracking.
